Sub: Submission of Memorandum on Electricity (Amendment) Bill 2021

Dear Sir,

Please refer to the correspondences to the Ministry of Power from NCCOEED and its constituents on the captioned subject.

We are aggrieved to note the adverse impacts of the impugned bill drafted to curb the right to Electricity of poor and rural people including farmers in the interest of the business community. We look it as a bonanza to them at the cost of the people,

In this Memorandum, we have submitted our concern in general and clause wise points of objections, expecting serious introspection on the part of the Ministry of Power.

We once again request you to extend the scope of discussion before the bill is enacted.

Yours Sincerely
