CIRCULAR

9th December, 2021

NCCOEEEE National Chapter noted that Government of India has sent written communication to the Samyukta Kisan Morcha (SKM) assuring that Electricity (Amendment) Bill, 2021 will not be placed in the Parliament without consulting the Stake Holders.

Constituents of NCCOEEEE being the foremost National Federations of employees and Engineers, are the major stake holders in the Electricity industry. Government opted to put complete hold upon the ongoing process of discussion, drafted a new Bill, since initial days of COVID-19 Pandemic and moving arbitrarily to the legislation process. NCCOEEEE had to resort to the path of struggle.

NCCOEEEE, upon above development decided to postpone the Parliament March on 15th December, 2021 and greets the struggling spirit of valiant Farmers and members of all constituent organizations of NCCOEEEE.
